

# streamline

**Built for business. Made for you.**

From tech to tea, stationery to hygiene, streamline brings all your essentials into one smart, time-saving platform. With built-in approvals, live stock tracking and fast delivery. It's everything you need – without the usual admin.

## Why This Platform Works for Business

### Real-time stock & pricing

See exactly what's available and what you'll pay – no surprises.  
Aligned to your sales agreement and contract pricing.

### Multi-user & approval workflows

Assign buyers, approvers, and cost centres.  
Control spend and permissions at team or branch level.

### Quick re-ordering from history or favourites

Use past orders to restock in seconds.  
Save lists by team, project, or department.

### View all your quotes, orders & invoices

No more chasing paperwork – all docs are available instantly.  
Download official copies any time.

### Built-in search for contract items

See your products first.  
Add from category, favourites, or item code.

### Track all orders in one place

Get updates from order placed to dispatch.  
See fulfilment status across your cost centres.

## How Easy Is Onboarding? Switch to eCommerce

If you already buy from us, you're already halfway there.

No new contract or renegotiation required

Your pricing, credit terms, and account number stay the same

You'll receive an activation link and login it's that simple

Your Key Account Manager will guide your team

Live Teams training sessions available for your buyers & admins

Regional support team available for setup and ongoing help

## Why It Matters

Procurement shouldn't be the bottleneck. With Streamline, it isn't.

### Local Support

Designed for South African businesses with dedicated local support, ensuring smooth operations and rapid assistance.

### Scalable Efficiency

Built for scale and efficiency, from head office to regional teams, Streamline adapts to your business growth.

### Secure & Future-Ready

A secure, cloud-based platform ensures your data is safe and your procurement processes are prepared for the future.
